

Nurturing the Green Dream

CIDCO's green movement

As the appeal had been made to all community organisations, NGOs, Associations and Institution to participate in CIDCO's plantation drive to transform Navi Mumbai into green city, we have received some applications from various organisations and individuals.

The very objective of this drive is to convert and cover barren hills and low laying lands into a green and sustainable human settlement.

As we mentioned above that we received a response from Social Organisations, Education Institutions and Individuals, we have categorised them into three classes on following basis.

1. Organisations participating in plantation along with CIDCO.
2. NGOs participating in plantation drive on their own.
3. Social organisations and housing societies.

All possible efforts are being made to make this drive success. Creating awareness to protect environment and to nurture existing greens is our main objective.

For your information, we have herewith attached the list of organisations participated in green drive.
